

**McCormick & Company Recalls McCormick Fajitas Seasoning Mix Due to Unlabeled Wheat and Milk Ingredients**

April 7, 2010

SPRING, Md., Apr. 07 2010 (BUSINESS WIRE) – McCormick & Company, Incorporated (NYSE:MKC) has announced a voluntary recall of McCormick Fajitas Seasoning Mix, with UPC Code 5210002121 and "BEST BY" dates of JAN 16 12 AM and JAN 16 12 PM. McCormick Fajitas Seasoning Mix packages with these date codes contain undeclared wheat and milk ingredients. People who have allergies to wheat or milk run the risk of serious or life threatening allergic reactions if they consume this product.

The McCormick Fajitas Seasoning Mix packages were distributed to grocery stores nationwide beginning on February 15, 2010. The product is available in 1.12 oz. pouches, and the date code is located printed in black on the back, at the bottom of the pouch. The "BEST BY" dates of JAN 16 12 AM and PM are the only date codes affected by the recall.

The recall was initiated after it was discovered that the product was mispackaged, and as a result, the ingredient statement on the package did not list wheat and milk as ingredients.

No illnesses or allergic reactions have been reported to date. No other McCormick products are involved in the recall.

All grocery outlets that sell McCormick Fajitas Seasoning Mix packages have been notified to remove the affected product (UPC Code 5210002121 and a "BEST BY" date of JAN 16 12 AM and JAN 16 12 PM) from their shelves immediately. Consumers do not need to return the product to the store where it was purchased. Instead, consumers are urged to contact McCormick's Consumer Affairs team at 1-800-433-6847, weekdays from 9:00 AM to 9:00 PM, or weekends from 11:00 AM to 7:00 PM (Eastern Time), for a replacement or full refund, as well as instructions on what to do with the product.

This recall is being made with the knowledge of the Food and Drug Administration. The company is also issuing an alert through the Food Allergy & Intolerance Network.
