# McCORMICK REPORTS DOUBLE-DIGIT EARNINGS GROWTH ON STRONG TOP LINE RESULTS 

SPARKS, MD, SEPTEMBER 29 — McCormick \& Company, Incorporated (NYSE:MKC), today reported record third quarter sales and earnings per share from continuing operations for the quarter ended August 31, 2004 :

- Sales increased $\mathbf{1 0 \%}$ to $\mathbf{\$ 6 1 4}$ million
- Earnings per share from continuing operations increased $18 \%$ to 33¢

## - Year-to-date, net cash flow from continuing operations reached $\mathbf{\$ 1 0 9}$ million compared to $\mathbf{\$ 1 9}$ million a year ago

Sales for the quarter were $\$ 614$ million, an increase of $10 \%$ versus the third quarter of 2003. Higher volume, pricing and product mix contributed $7 \%$ of the increase, and $3 \%$ was added by favorable foreign exchange rates.

Earnings per share from continuing operations for the third quarter increased $18 \%$ to $33 ¢$ compared to $28 ¢$ in the third quarter of 2003. Compared to the prior year, gross profit margin was $39.0 \%$ versus $38.1 \%$, and operating income margin was $12.1 \%$ versus $11.2 \%$. The increase in operating income margin is net of higher advertising and research and development expenses. The Company used a portion of the proceeds from the settlement of the class action lawsuit received in the second quarter to fund these marketing and product development efforts.

Year-to-date, net cash flow from continuing operations was $\$ 109$ million compared to $\$ 19$ million in the prior year. For the third quarter, net cash flow from continuing operations rose to $\$ 42$ million from $\$ 6$ million a year ago. Contributing to the increases for the quarter and year were higher net income from continuing operations and a reduction in inventory that is being driven by supply chain initiatives.

## Chairman's Comments

Robert J. Lawless, Chairman, President \& CEO, commented, "We are extremely pleased with our third quarter results. These results are a good illustration of our strategy in action: to improve margins, invest in the business and grow sales and profits. With gross profit margin up .9 percentage points, we are creating fuel for initiatives that include marketing programs, product development and our B2K program. These types of investments are leading to higher sales and profits for both segments of our business. In the third quarter we increased consumer sales $12 \%$ and industrial sales $9 \%$. Profits also increased with operating profit up $18 \%$ and net income from continuing operations up $15 \%$.
"Our U.S. consumer business had exceptionally strong sales performance this quarter. We increased Zatarain's sales 23\% and sales of other U.S. consumer products $12 \%$. This
performance was driven by the Zatarain’s rice mixes including the Ready to Serve products introduced earlier in 2004, and higher sales of grinders, Hispanic products, GrillMates sauces and blended seasonings. Pricing actions, as a result of higher cost vanilla, also contributed to the increase. Market conditions in certain parts of Europe and the Asia/Pacific region are challenging. In these areas we are focused on maintaining share and employing multiple strategies for growth.
"Sales for the industrial business continued to strengthen with new products for quick service restaurants and improved sales of snack seasonings. In particular, sales of coating systems are up significantly year-to-date compared to 2003. Our ability to develop consumer-preferred flavors is paying off as we deliver winning products to our customers. In international markets, we are shifting our emphasis toward more value-added, higher-margin products. While this initiative is affecting near-term sales performance, in the long-term it will lead to improved profitability.
"Given our year-to-date results and current financial projections, we expect to increase sales for the full year at a low double-digit rate. Our earnings per share target of $\$ 1.51-\$ 1.54$ remains unchanged from our initial goal for 2004. Net cash flow from operations after net capital expenditures and dividends will exceed $\$ 100$ million, and we are using the majority of this cash to repurchase shares during 2004.
"In summary, we have good momentum as we begin our most significant quarter of the year and are well positioned with our line-up of products and marketing support for the upcoming holiday season. Employees throughout the Company are working hard to deliver another record year for McCormick in 2004."

## Business Segment Results

## Consumer Business

| (in thousands) | Three Months Ended |  |  |  | ne Months Ended |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 8/31/04 |  | 8/31/03 |  | 8/31/0 |  | 8/31/03 |  |
| Net sales | \$ | 303,239 | \$ | 271,634 | \$ | 899,630 | \$ | 755,693 |
| Operating income |  | 56,776 |  | 45,304 |  | 151,390 |  | 121,539 |

For the third quarter, sales for McCormick's consumer business rose $12 \%$ when compared to 2003. Higher volume added $6 \%$ to sales, price and favorable product mix added $3 \%$ and favorable foreign exchange added $3 \%$. In the Americas, sales increased $13 \%$ with volume up $8 \%$ and price and product mix adding $5 \%$. New product success and effective marketing drove higher volumes during the quarter as well as new distribution gained in 2003 with a major grocery retailer. In addition to these volume increases, pricing was higher in the Americas for vanilla products in response to higher vanilla bean costs. Consumer sales in Europe increased $9 \%$ for the quarter, with $8 \%$ due to favorable foreign exchange. Sales in this region were affected by more intense competitive conditions. In the Asia/Pacific region, consumer sales increased $2 \%$. Foreign exchange added $5 \%$, while a less favorable product mix in Australia and an emphasis on higher-margin products in China led to a net $3 \%$ decline in volume, price and product mix.

Operating income from continuing operations for the consumer business increased $25 \%$ to $\$ 57$ million for the third quarter of 2004, despite a $\$ 3$ million increase in advertising. This higher income was driven by strong sales performance, an emphasis on higher-margin products
and cost reduction efforts. Operating income margin for the third quarter rose to $18.7 \%$ from $16.7 \%$ in the prior year.

## Industrial Business

| (in thousands) | Three Months Ended |  |  |  | Nine Months Ended |  |  |  |

| Operating income |  | 31,207 |  | 27,872 |  | 85,478 |  | 80,074 |

For the third quarter of 2004, sales for McCormick's industrial business increased 9\% when compared to 2003. Higher volume added 5\%, favorable foreign exchange added $2 \%$ and price and favorable product mix added $2 \%$. In the Americas, industrial sales rose $9 \%$ due to an $8 \%$ volume increase that was driven largely by new products. Industrial sales in Europe increased $10 \%$ for the quarter, with foreign exchange contributing $11 \%$. A continued shift in emphasis to higher margin products resulted in reduced sales of certain lower margin products. In the Asia/Pacific region, industrial sales rose $2 \%$ in the third quarter, due to favorable foreign exchange. The elimination of certain bulk ingredient sales offset an increase in sales of more value-added products during the quarter.

In the third quarter of 2004, industrial business operating income increased $12 \%$ to $\$ 31$ million, despite higher product research and development costs. This income was the result of higher sales, an emphasis on more value-added, higher-margin products and cost reduction efforts. Operating income margin for the third quarter rose to $10.1 \%$ from $9.7 \%$ in the prior year.
